119  
EC 792 P0

U. S. DEPARTMENT OF AGRICULTURE  
Office of Secretary  
Washington, D. C.

By virtue of authority vested in the Secretary of Agriculture by the United States warehouse Act of August 11, 1916 (39 U.S. Stat. L., p. 486), as amended, I, R. W. Dunlap, Acting Secretary of Agriculture, do make, prescribe, publish, and give public notice of the following amendments of the regulations of the Secretary of Agriculture, approved and promulgated May 10, 1924, and amended December 12, 1924, for potato warehouses licensed under said Act, such amendments to be effective immediately.

Amend Regulation 1, Section 2, Paragraph 1, to read:

Only the main or late crop of Irish potatoes or those which are generally recognized as storable for commercial or table purposes and/or such potatoes of this crop as have been grown for seed purposes and which have been carefully inspected and rogued in the fields during the growing season and are carefully inspected into the warehouse for condition and freedom from disease.

Amend Regulation 4, Section 1, Paragraph 2, to read:

Paragraph 2. (a) Every receipt, whether negotiable or non-negotiable, issued for table stock potatoes stored in a licensed warehouse shall specify a period for which the potatoes are accepted for storage, but no receipt shall be issued for potatoes stored prior to September 15 of the year in which harvested, nor shall the first receipt issued for any lot of potatoes be issued for a period beyond three months from the date of issuance of said receipt. Upon demand and surrender of the old receipt by the lawful holder at the expiration of the period specified in the receipt, the warehouseman, upon such lawful terms and conditions as may be granted by him at such time to other depositors of potatoes in his warehouse, if he then continues to act as a licensed warehouseman, shall issue a new receipt for a further specified period not extending beyond April 15 of the year following harvesting, provided, before issuing such receipt it is actually determined by the licensed inspector that the potatoes are in suitable condition for further storage.

(b) Every receipt, whether negotiable or nonnegotiable, issued for graded seed potatoes stored in a licensed warehouse shall specify a period for which the potatoes are accepted for storage, but no receipt shall be issued for seed potatoes stored prior to September 15 of the year in which harvested, nor shall any receipt be issued for a period beyond April 15 of the year following harvesting, except in States which have provided a seed potato certification service which is acceptable to the Bureau and when it appears feasible and the approval of the Bureau has first been secured, the licensed warehouseman may in the first instance issue a receipt for a period not extending beyond May 15 of the year following harvest for graded seed potatoes which have passed such State field and into bin inspections.

In testimony whereof, I have hereunto set my hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington this 13th day of November, 1930.

*R. W. Hurlap*

Acting Secretary of Agriculture.
